RE: BOND ELECTION

Industry in Torrance has examined the financial program, the budget, and the vastly increasing building needs of the Torrance Schools.

We consider the Board's proposal for seeking a state loan and a 75¢ over-ride tax, to be used, only as needed, to be a reasonable solution to the problem of more schools for Torrance children.

THE STATE LOAN WILL HELP:

- 1. Secure needed new schools.**

THE TAX INCREASE IS:

- 1. To equip the new buildings**
- 2. To increase teachers' salaries.**
- 3. To keep up with the added cost of educating the increasing number of high school students.**

The industries of Torrance are financing this advertising to let you know that we think it is important to vote favorably on both items October 9th.
